- [Moodpath](#) (Mood Tracker)

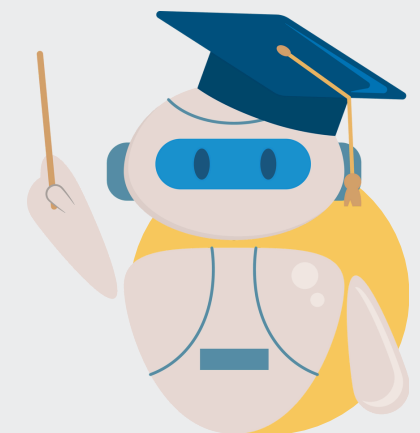

Hackathon Ideas

Tips for Cursor

- "Make a page with a schedule I can fill in each day."
- "Add a form where I can write my homework tasks and check them off."
- "Create a mood tracker with emojis like 😊 😐 😞."
- "Let's add a random quote that changes every time I refresh!"
- "Make a button to play a simple quiz game."

Hackathon Ideas

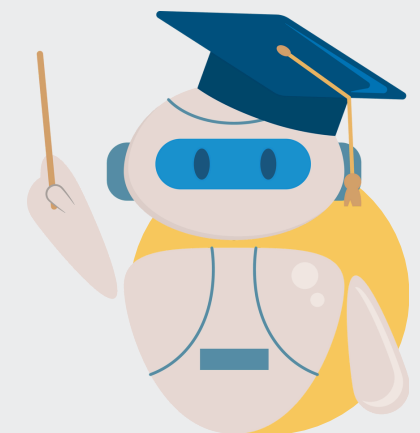

2. Kidsera – Learn Anything, Kid-Style

You get to be the teacher! Build a site where you can add cool learning videos, take mini quizzes, and even let your friends upload their own lessons too. Make it fun like your own version of YouTube School!

Inspiration Links:

- [Khan Academy Kids](#)
- [TED-Ed](#)

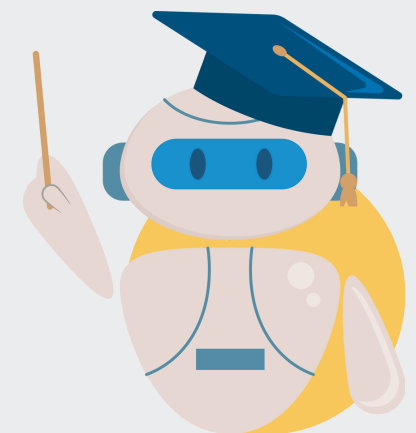

Hackathon Ideas

Tips for Cursor

- "Make a homepage with categories like Math, Science, and Art."
- "Add a card layout with each video, title, and description."
- "Make a mini quiz below each video with 3 multiple-choice questions."
- "Let me submit my own lesson with a title and YouTube link."
- "Add fun badges when someone finishes watching 3 lessons."

Hackathon Ideas

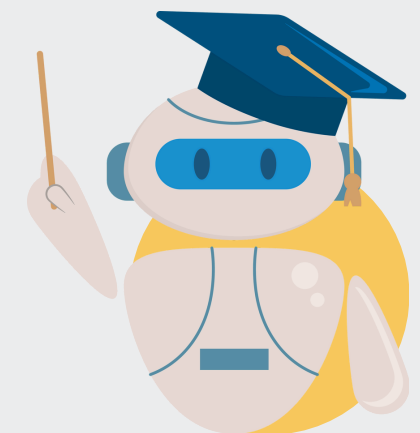

3. Me vs. Me – Habit Tracker Challenge

Create a fun goal tracker where you can set challenges like “read every day” or “sleep on time,” and check them off every day! You’ll earn badges as you keep going!

Inspiration Links:

- [Habitica \(Gamified Habit Tracker\)](#)
- [Strides App](#)

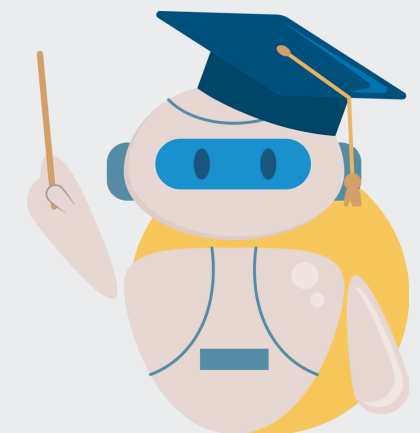

Hackathon Ideas

Tips for Cursor

- "Create a place where I can choose 3 habits to track."
- "Let me tick off my goal each day with checkboxes."
- "Show a streak number or progress bar that grows."
- "Add reward badges like ★ when I reach 5 days!"
- "Make a simple calendar showing my progress."

Hackathon Ideas

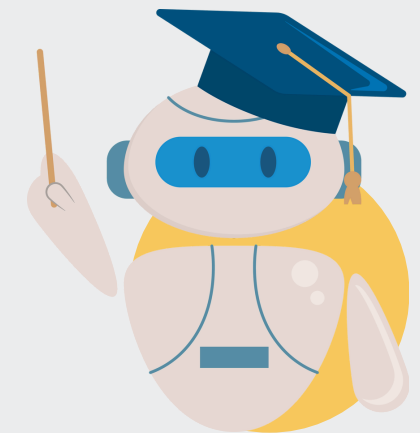

4. Curio Corner – Fun Facts & Mini Explorations

Build a cool site that gives you fun facts about space, animals, or crazy science stuff. Make a button that shows a new fact every time you click, and show fun videos, GIFs, or little experiments to try at home!

Now with a Curio Blog, where you can read short stories, cool discoveries, and even post your own fun ideas!

Inspiration Links:

- [National Geographic Kids](#)
- [Wonderopolis](#)

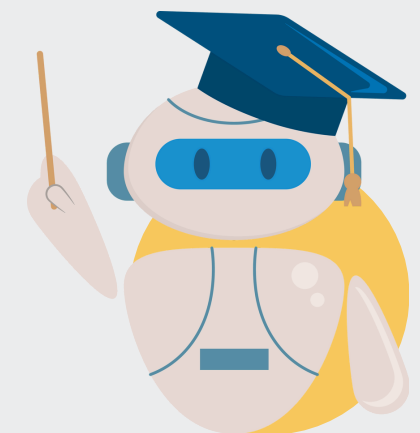

Hackathon Ideas

Tips for Cursor

- “Make a homepage with buttons for topics like Space, Animals, Science.”
- “Add a button that gives a new random fact each time I click.”
- “Show images or gifs with the fact.”
- “Create a 'Try This at Home' section with a short activity.”
- “Let’s make a quiz section with true or false questions!”
- “Save favorite blog posts to localStorage.”
- “Add a blog page that shows blog cards with images, titles, and short descriptions.”

Hackathon Ideas

Tips for Cursor

- “Let me filter blog posts by category like Space, Animals, or Science.”
- “Each blog post should have a title, author, image, story, and a fun fact box.”
- “Create a blog form so users can write and preview their own blog post (saved in localStorage).”
- “Add a search bar to the blog homepage to find posts by keyword.”
- “Make a dark mode toggle for fun.”
- “Save favorite blog posts to localStorage.”
